# Range of Products & Services

## Major Activities

### Supply of Welding & Cutting Machines

- MIG Welding Machines
- TIG Welding Machines
- Arc Welding Machines
- Plasma Cutting Machines
- Engine Driven Welders
- Stud Welding Machines

### Welding Spares & Accessories

- MIG & TIG Torches
- MIG & TIG Tips & Nozzles
- Nitrogen & Oxygen Regulators
- Gas Cutting Sets
- Electrode Holders
- Welding Machine Cable

### Equipment Rental

- Arc Welding Machines
- TIG Welding Machines
- MIG Welding Machines
- Welding Generator

### Repair & Maintenance

- Arc Welding Machines
- TIG Welding Machines
- MIG Welding Machines
- Welding Generator
- Power Tools

### Welding & Cutting Automation

- Plasma Cutting Machine
- Waterjet Cutting Machines
- OxyFuel Cutting Machines
- Orbital Welding Machines
- Tank Rotators
- Automatic Nozzle Welding Machines

### CNC Precision Cutting Services

- Plate Cutting & Beveling
- 3D Pipe profile Cutting
- Waterjet Cutting
- Laser Impression & engraving

## INTRODUCTION

WeldCut Middle East provides a wide array of quality products catering to range of engineering industries in the metal fabrication. We are focused at providing end to end solutions along with expert technical support before and after supply of product or services.

We represent international product brands which are expert into their respective field and well established internationally. Our services are extended to support our client with aftersales services such as supply of consumables and the maintenance services.

Our expert sales staff is always tuned to provide the most suitable and commercially optimistic solutions. If you require products that do not feature on this catalogue, feel free to send an enquiry or give us a call, as we are able to source almost anything relating to welding & cutting!

# Welding Machines

WME Middle East is representative of various market famous and well established brands in welding world. We supply the various types of welding and cutting machines which enables us to cater needs to various industries.

WME is committed to providing the highest level of customer service and support to help you maintain and optimize your investment on this equipment. We offer a comprehensive aftersales support to the equipment supplied to our clients.

Some of the types of equipment supplied by us are listed as under,

- a) MIG Welders
- b) TIG Welders
- c) Arc Welders
- d) Plasma Cutters
- e) Multi Process Welders
- f) Engine Driven Welders
- g) Spot Welders
- h) Stud Welders
- i) Specialist Cutting Equipment

All above machines/equipment are available in various capacities and ranges as well as brand. Our experienced sales staff can assist you to select the most suitable equipment for your welding process

To know detailed information on the product/equipment suitable to your welding process kindly contact our sales department on address given below.

# Welding Spares & Accessories

## MIG Welding Machine Consumables

- MIG Torches, Contact Tips, Nozzles
- Swan Neck, Straight Neck, Insulator & Gas Diffusor
- Cable Liner, Guide Rollers

## TIG Welding Machine Consumables

- TIG Torches (Air Cooled & Water Cooled)
- Swan Neck(Straight & Flexible type)
- Tungsten Electrodes, Back Caps,
- Ceramic Nozzles, Insulator

## Arc Welding Machine Consumables

- Electrode Holders
- Earth Clamps
- Cable Connectors
- Copper Welding Cables

## Plasma Cutting Machine Consumables

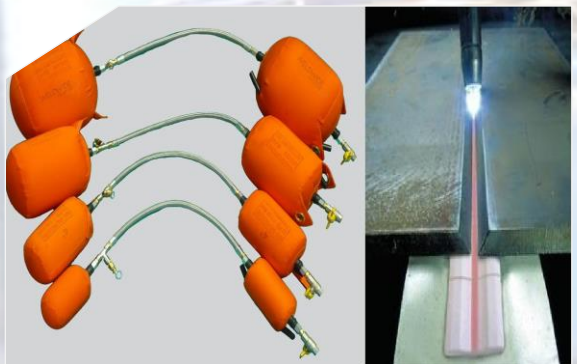

- Plasma Cutting Torches
- Plasma Cutting Torch Consumables

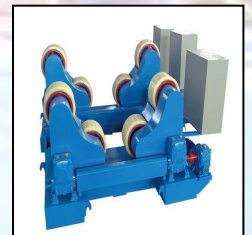

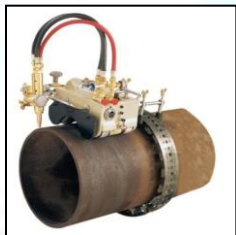

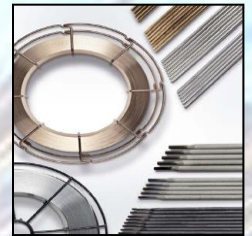

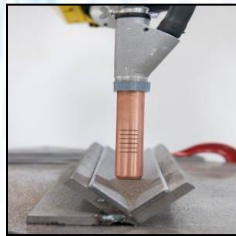

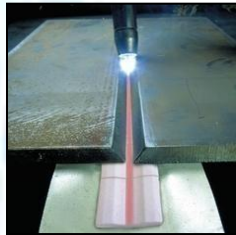

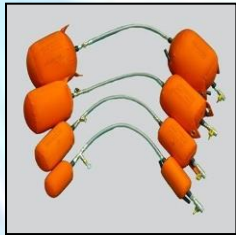

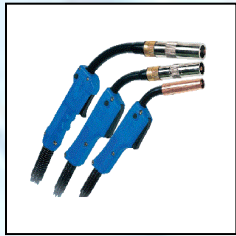

## Gas Cutting Consumables

- Manual Gas Cutting Sets
- Pug Cutting Machines
- Oxygen/Nitrogen/Argon/CO2 Regulators with heater
- Gas cutting Nozzles & Tips
- Twin Gas Hose

## Specialized Welding Needs

- Electrode Baking/Holding Ovens
- Gas Purging Dams
- Ceramic Weld backing Strips
- PCB for all type of Welding Machines
- Solenoid Valves
- SAW Nozzle Assembly

# Equipment Rental Services

## Flexible Solutions:

WeldCut Middle East has a range of welding and cutting equipment available for rental on a short, medium or longer term basis.

You may require an extra machine to help you through a peak production time or just to have on standby in case of a breakdown during a critical job. Whatever your situation, we offer flexible arrangements for machine rental anywhere in UAE also some countries in GCC.

## Backup and Servicing:

Every machine is backed up by an experienced service team along with technical advice and assistance with set up and operation if required.

## Large Range Available:

Equipment for rental includes a wide selection welding machines;

- 1) MIG Welders: 400Amp (Three Phase)
- 2) Arc Welders: 400Amp (Three Phase)
- 3) Plasma Cutters: 40Amp (Single Phase)
- 4) Plasma Cutters: 80Amp to 120Amp (Three Phase)
- 5) Engine Driven Welder Generators: 400Amp.

# Repair & Maintenance

WME provides repair and maintenance services for most of the brands of welding equipment, cutting equipment and related equipment. We have a fully equipped service department in UAE facility.

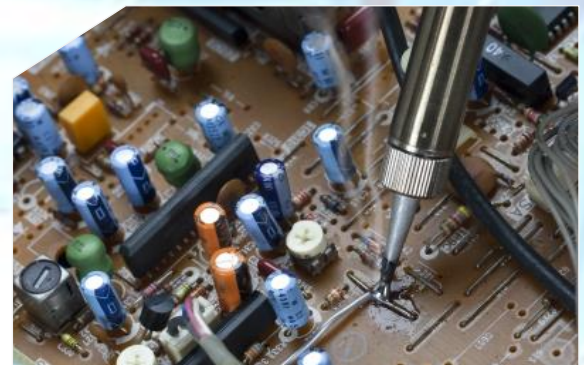

The repair service start with a technical consultation which helps you to spend optimized on the repair or maintenance. Our repair service not only helps you to repair your equipment but we also supply you the spare parts for these equipment. The equipment is provided with limited warranty or guarantee which further extends your reliability on WME. WME awaits your inquiries on Repair related services.

## Preventative Maintenance Program & Annual Maintenance Contract

Prevent costly down time from unexpected failures of your equipment with our preventative maintenance program. Our trained technicians will inspect, replace worn out parts, repair and clean your equipment so that costly down time is a thing of the past. We can perform the preventative maintenance on site or at our service and repair facility. We also offer annual maintenance contracts for all brands of welding equipment.

## The Equipment We repair,

- Arc Welding Machine
- TIG Welding Machines
- MIG Welding Machines
- Plasma Cutters
- Welding Generators
- SAW Welding Machines
- Spot Welding Machines
- Hand grinder, drilling machines etc

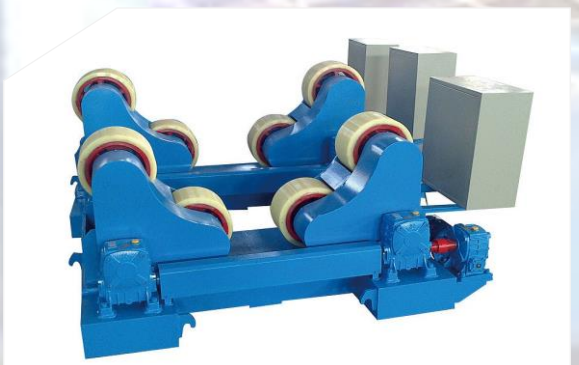

# Welding & Cutting Automation

With changing time the fabrication industry has diversified and modern automation technologies are common. Automation in welding & cutting is a must to match with end users degree of quality and delivery time. WeldCut Middle East is supplier of welding automation products which are technically advance and commercially with best price. We represent the some of the world removed brands in welding and cutting related automation products such as KELPE TECH, KOWELD etc

We take care that our clients get the best support from the start of the project as well as we provide the after sales support to help maintain the valuable assets update and optimize the operating cost of the equipment. The welding automation products supplier by WeldCut Middle East are listed as under

- CNC Plasma Cutting Machines
  - CNC Waterjet Cutting Machines
  - CNC OxyFuel Cutting Machines
  - Orbital Welding Machines
  - Tank Rotators
  - Automatic Nozzle Welding Machine
- 
- The CNC machines in plasma/water/oxyfuel are available from table sizes 2500mm wide & as long as 15000mm long.
  - The cutting capacity for carbon steel plates is maximum as 150 mm thick. Varies metal to metal.
  - The Oxyfuel cutting units are from Harris, USA
  - The Plasma Cutting power source & torches are from Hypertherm, USA
  - The Waterjet Machines are powered with high pressure pumps from KMT Germany
  - All controls are from Mutsubishi Electronic Controls, Japan
  - All Machines are supplied with precision ball screw/ rack & pinion drives on all the axes.
  - 19 inch LCD display and with true nesting software.

# CNC Precision Cutting Services

WeldCut Middle East also provides CNC precision cutting services. The cutting services are offered for various types of material and wide range of thicknesses. The various CNC cutting services offered are as under

- CNC Plasma Cutting Machines
- CNC Waterjet Cutting Machines
- CNC OxyFuel Cutting Machines

The various cutting services are

- Steel Plate cutting
- Pipe profile cutting (miter joints, elbow, cross & other profile)
- Beveling (Steel Plates, Pipes & cones)

The various materials those can be cut using our services are as under

- Carbon Steel
- Aluminium
- Brass
- Copper
- Stainless Steel
- Super Duplex Stainless Steel
- Ceramics
- Plastic
- Wood
