

FERROWELD

HANDHELD PNEUMATIC MARKING MACHINE

The FERROWELD Handheld Pneumatic Marking Machine is a portable marking solution with an integrated touch screen controller. It prints any logo, serial number, VIN code, and multilingual characters on a wide range of metal and non-metal parts with high accuracy and speed.

FEATURES

HIGH PRECISION

Equipped with a high-precision stepper motor to ensure marking accuracy.

PORTABLE

Lightweight, compact, and easy to carry, making it convenient for on-site use.

EASY OPERATING

User-friendly touch screen panel for simple and efficient operation.

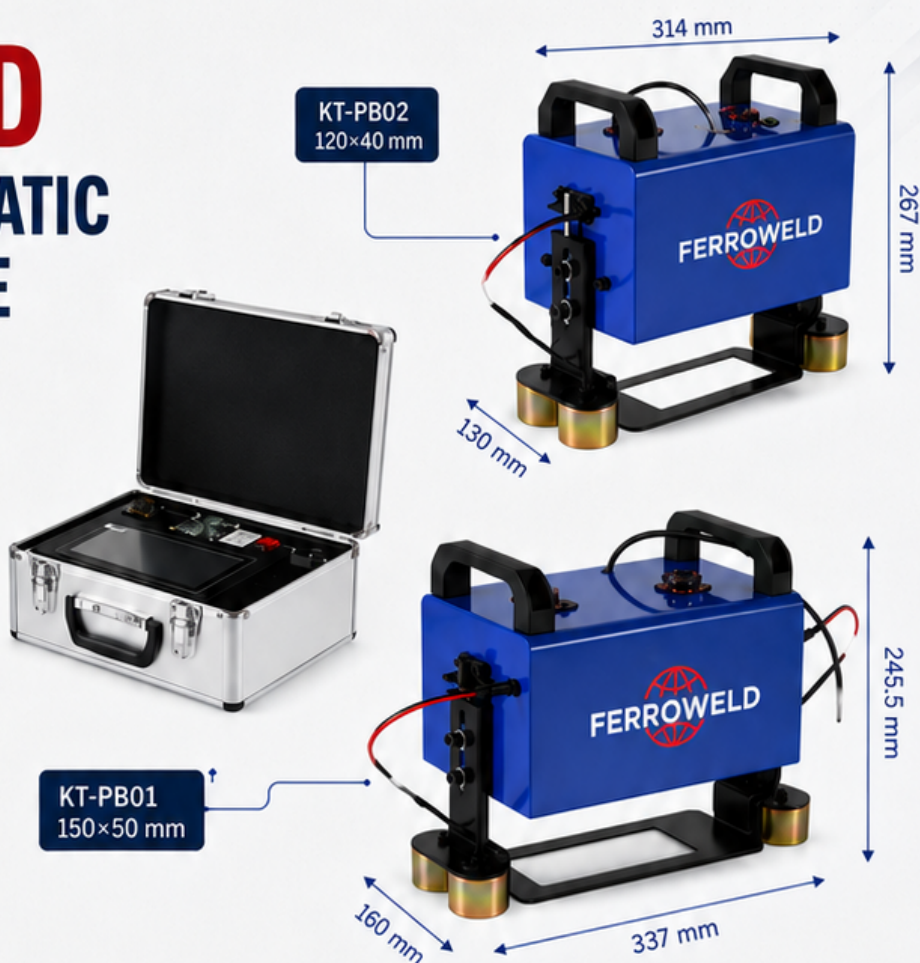

MULTIFUNCTIONAL

Automatic date, serial number, and VIN code printing with network communication.

ECONOMICAL

Suitable for various nameplate and sign marking with simple and economical operation.

SPECIFICATIONS

PARAMETER	KT-PB02 (120×40 mm)	KT-PB01 (150×50 mm)
Marking Range	120 × 40 mm	150 × 50 mm
Marking Depth	0.01 – 2 mm	0.01 – 2 mm
Marking Speed	30 – 40 mm/s	30 – 40 mm/s
Power	500 W	500 W
Air Pressure	0.3 – 0.6 MPa	0.3 – 0.6 MPa
Power Supply	AC 220V~110V ±10%, 50Hz~60Hz	AC 220V~110V ±10%, 50Hz~60Hz
Material Hardness	≤ HRC60	≤ HRC60
System Requirement	Touch Screen Version (No computer required)	Touch Screen Version (No computer required)
